

SCREENING FOR LIFE.CA

REGULAR SCREENING IS THE BEST WAY TO FIND BREAST CANCER EARLY

- If you're aged 50 to 74, having a mammogram every 2 years or as recommended by your radiologist is suggested.
- If you're 75 and over, please talk with your healthcare provider to see if screening mammogram needs to be part of your breast health routine.
- If you're aged 40 to 49, please talk to your healthcare provider to see if screening mammogram needs to be part of your breast health routine. If you have already started screening, having an annual mammogram is recommended.

If you notice something different about your breasts, please talk to your healthcare provider.

What is the benefit of being part of the Alberta Breast Cancer Screening Program (ABCSP)?

- The radiology clinic will send your test results to both you and your healthcare provider. The radiology clinic also sends your results to the ABCSP.
- The ABCSP will send you a reminder letter when you are overdue for your next mammogram.
- If you're not sure that you want to receive screening results and reminder letters, please call 1-866-727-3926 or talk to your healthcare provider about the benefits of being part of the ABCSP.
