

Are you a woman* aged 45 to 74?

Get screened for breast cancer
every 2 years.

1 in 8 Canadian women will be diagnosed
with breast cancer. Getting screened
helps find breast cancer early, before
it can be felt or seen.

*Some women aged 40 to 44 and some transgender, gender diverse and
non-binary people are also recommended to screen for breast cancer.
Visit screeningforlife.ca for more details.

Find a clinic near
you and book your
free mammogram
