

Are you a woman* aged 45 to 74?

Get screened for breast cancer every 2 years.

1 in 8 Canadian women will be diagnosed with breast cancer. Getting screened helps find breast cancer early, before it can be felt or seen.

*Breast cancer screening eligibility is not based solely on gender identity. Some women aged 40 to 44 and some transgender, gender diverse and non-binary people are also recommended to screen for breast cancer. Visit **screeningforlife.ca** for more details.
