

Screen Test Mobile Schedule 2021

Screen Test provides screening mammograms in 120 communities in rural Alberta with two mobile screening units, as well as at fixed location clinics in Edmonton and Calgary. Screen Test provides high quality digital screening mammography, and has consistently exceeded international standards for the early detection of breast cancer.

Due to COVID-19, screening services were suspended for several weeks and with the implementation of additional precautions our capacity has been reduced resulting in a delay in the Screen Test mobile unit visit to many communities. Screen Test will be mailing recalls to clients who are due or overdue for their mammogram about a month before the clinic and general awareness will include emailed announcements to community stakeholders, posters, newspaper ads and notices to healthcare provider clinics.

Call 1-800-667-0604 to confirm Screen Test dates for your community and to book an appointment.
